Derek was also very well-informed on aviation and served successfully with the Royal Observer Corps until its disbandment in 1995. The love of sharing his knowledge with other enthusiasts that drew him to it.

It was successful hosting of the BANS Congress in April 2008, and several popular Token Congress weekends. Once he retired, Derek was able to focus on his love of coins and frequently attended coin fairs around the country. It was the love of sharing his knowledge with other enthusiasts that drew him to it.

Derek was born in Tunbridge Wells in Kent, and shortly after the family moved to Worthing, West Sussex. He had one sister, and they lived with their mother while their father was serving in the Second World War in Africa. During Derek’s lifetime, his family moved frequently, first from Worthing to Storrington and then to Cornwall. After leaving school he worked briefly and reluctantly in a bank, from which he was rescued by a customer who headhunted him to deal with his accounts. Derek eventually started work in an arcade at Butlin’s and over 35 years he worked in many Butlin’s locations eventually settling down with his wife in Bognor Regis where they lived for forty plus years until his final days surrounded by his close family. A big family man who always put them first he leaves behind a loving wife, son, three daughters, three granddaughters and a grandson.

Derek’s interest in coins began back in the arcade at Butlin’s. He always had a fascination with money and one day asked what they did with all the unusable coins collected from the slot machines. When the manager said they would just dispose of them, Derek with his collecting hat on said he would take them. In 1967 Derek co-founded the Worthing Numismatic Society where he was successively elected Vice Chairman, Chairman, and finally President in 2013. He was encyclopaedic on most things numismatic and was not only an acknowledged expert on Roman coinage, but also a modest and generous man, always prepared to share his knowledge and experience.

In 1973 after 10 years of collecting, he felt that the chances of finding coins were better than buying them, as coins were expensive to buy back then, so he invested £70 in a metal detector. His first test search (much to the amusement of his colleagues) consisted of a staggering 4½p in cash and a Butlin’s chalet key. After some thorough research of the Beachy Head area, he was adamant there was more to find after two previous hoards had been found in 1961 and 1964. With approval from the land owner he went over one Sunday with his new metal detector and a friend. Leaving his wife in the car they set off. After about an hour Derek thought he should check on the wife and just as he went to place the detector on the ground it went off. Two and a half feet below the ground they hit a bronze bucket which surprisingly contained a hoard of 5546 Roman coins dating from 253 to 273 AD, minted at Cologne and Trier. At the time it was the largest hoard found with a metal detector and declared treasure trove. Unfortunately, it started a bout of illegal digging in the area.

Over the years he also assisted in the cleaning, preservation and identification of a number of hoards. Not only his own find, of which some stayed in his possession while the rest went to the British Museum, but also a hoard of 4300 Roman coins found in Northamptonshire. Often consulted by the British Museum on the identification and conservation of Roman coin finds he was also an authority on the often-scarce Anglo-Saxon silver pennies of the Sussex mints.

Numismatics often benefited from his organisational flair, when for example he contributed to Worthing’s very successful hosting of the BANS Congress in April 2008, and several popular Token Congress weekends. Once he retired, Derek was able to focus on his love of coins and frequently attended coin fairs around the country. It was the love of sharing his knowledge with other enthusiasts that drew him to it.

Derek was also very well-informed on aviation and served successfully with the Royal Observer Corps until its disbandment in 1995.

Entered in this sale are a good quantity of lots belonging to the late Derek Aldred. These are mostly Roman and other ancients along with a collection of Indian coins.

ex Baldwin’s vault

In 1782 de Suffren fought four indecisive battles against the British Admiral, Sir Edward Hughes, however the anchorage at Trincomalee was captured and the small British garrison surrendered. He continued to support Hyder Ali and, on his death, Tipu Sultan, against the British, only returning to France after the news that peace had been made in Europe. De Suffren retired to Malta to take up his duties as Bailly of the Order.

432. World War I, a Royal Engineers / Royal Naval Reserve / RAF trio: 1914 star (Cpl. B. E. Annoot. R.E.), War Medal and Victory Medal (Capt. B. E. Annoot. R.A.F), first very fine, latter two extremely fine (3) £250-350

Basil Ernest Annoot (b. 27 Feb. 1888) had an interesting service record. Appointed Sub-Lieutenant in Royal Naval Volunteer Reserve (LG 11 May 1915) and, in conjunction with the RNAS, served in Belgium on the armoured trains; he moved to Killingholme Seaplane Base, serving on motor-boats, then Calshot Seaplane Base, before Cherbourg and the RAF Marine Base at Portsmouth. He appears to have been discharged as the result of an accident.

Sold with photocopied records and details.

**End of Sale**
(1) Baldwin’s of St. James’s Limited [the Company] acts as agent for the seller. Sales made by the Company at public auction are sales made on behalf of the seller.

(2) The buyer of any lot will be the highest bidder. In the event of any dispute, the auctioneer shall have absolute discretion to settle the dispute as he thinks best; this may mean re-offering the lot for sale.

(3) The auctioneer shall have absolute discretion to divide any lot, combine two or more lots or withdraw any lot or lots without giving any reason. In the case of a dispute, he may re-offer a lot for sale. The auctioneer also has the right to refuse any bid or bids without giving a reason.

(4) The Company and auctioneer shall have absolute discretion to refuse admission to their premises or attendance at their auction of any person they deem unsuitable, without giving any reason for, or prior notice of, their action.

(5) The minimum increment between bids will normally be 5%. The auctioneer has the right to refuse any bid which is not in line with this increase. He also has absolute discretion to vary this increment as he sees fit.

(6) All lots are subject to a Buyer’s Premium of 20.00%, exclusive of VAT, (24% inclusive of VAT if the buyer is resident in the EU). The symbol ‘G’ appearing next to a lot indicates the item is ‘Investment Gold’ and therefore a VAT-registered trader can submit a claim to HM Revenue and Customs to recover the VAT element of the Buyer’s Premium. In the case of a lot marked with a dagger (†), import VAT at 5% will be added to the hammer price and will be payable by the buyer if resident in the EU. If the lot is being exported outside the EU, this import VAT can be waived or refunded on proof of export.

(7) Each bidder shall be deemed to act as principal unless the Company acknowledges in writing prior to the auction that he acts as agent for a named third-party principal. For bidders unable to attend the auction in person, commissions will be executed free-of-charge. Such bids must be written and must be received at least 24 hours before the sale begins. The Company cannot guarantee to execute bids received less than 24 hours before the sale. ‘Buy’ bids will not be accepted. The Company shall have no liability for any errors or omissions in executing such commissions.

(8) All buyers must, if requested, notify their name and address to the auctioneer and, if required, provide additional proof of identification, bank references or other credit references. All buyers must pay the full purchase price, at the point of collection of purchases, or a fractional deposit as may be determined at the auctioneer’s discretion, unless the Company has previously arranged credit terms. Seven working days must be allowed for clearance of personal cheques before delivery can be made unless a prior agreement has been reached. A 2.5% surcharge will be applied to all credit card payments.

(9) Ownership of lots does not pass to the buyer until the Company has received payment in full.

(10) All lots, however, are held to be at the buyer’s risk from the fall of the hammer. All lots shall be removed by the buyer within seven working days after the date of the sale. Any lots not so removed may become liable to removal, insurance and storage charges. Such lots may, at the auctioneer’s discretion, be re-offered for sale at auction or by private treaty without further notice to the buyer.

(11) All lots are offered for sale subject to any reserve price that may be imposed by the seller. The seller may not subsequently change the reserve without the agreement of the Company. Where a reserve has been set, only the auctioneer may bid on behalf of the seller. Lots are normally reserved at 80% of lower estimate, with auctioneer’s discretion. Unless reoffered for sale, the collection of unsold lots shall be the responsibility of the seller.

(12) (a) Lots are sold as shown with all faults, imperfections and errors of description and lack of authenticity. The Sale of Goods Act 1979 does not apply to the sale of any lot. Neither the Company nor the seller shall give any warranty, express or implied, in respect of any lot or be liable for any fault or error of description or lack of genuineness or authenticity of any lot. All statements as to items sold, whether made in catalogues, during the course of the auction or otherwise, are statements of opinion only and are not and shall not be taken to be statements or representations of fact. The Company reserve the right in forming their opinion to consult and rely upon any expert or authority considered by them to be reliable. Coins are graded to accepted UK standards to the best ability of our specialists. You acknowledge that the grading of coins is subjective and may vary from specialist to specialist, as the process is by nature an art and not a science. For this reason, we do not automatically accept and are not bound by the opinions of third party coin grading services for any purposes including before and after the sale of a lot.

(b) Refund policy – notwithstanding the foregoing, if any lot should be proved by the buyer to be not genuine or authentic, or to have been wrongly described in any material respect, the buyer may reject the same provided that he has given notice in writing of his intention so to do and shall have returned the same to the Company within one month from, and in the same condition, as at the date of sale. If the coin was in a plastic holder at the time of sale, we cannot accept its return if it has been removed from that holder. In addition, any items in graded holders are sold as is and can only be returned if deemed as fake. The onus of proving a lot to be not genuine or authentic or to have been wrongly described shall lie with the buyer. Proof of the inability of any recognised expert or authority to express a definite opinion shall not discharge such onus. If the buyer shall discharge such onus, the auctioneers shall rescind the sale and repay to the buyer the price paid by him. Save as provided herein, the Company shall not under any circumstances whatsoever be liable for any costs, expenses or damages (whether direct, indirect, special or consequential) incurred or suffered by the buyer in respect of any lot, whether or not as a result of any fault, imperfection, error or description or lack of genuineness or authenticity, including but not limited to loss of any kind of profit whatsoever. The buyer will not be entitled to claim interest on the amount due to him. The buyer shall not be entitled to a refund for any lot for any reason save as set out in this clause 12(b).

(13) Save as provided in the preceding paragraph of these conditions buyers must satisfy themselves as to the accuracy of their purchases at the time of delivery. The Company cannot be held responsible for any discrepancy which might be discovered after the lots have been removed from either the auction room or the auctioneers’ premises.

(14) As stated in paragraph (1), the Company acts solely as agent between the buyer and seller and shall not be held responsible for any default by either party or for any action or claim that may arise in connection with any lot.

(15) Any part of the purchase price still outstanding after the auction, in line with the terms of paragraph (8), shall be paid in full within thirty days of the date of the auction. Without prejudice to any other rights, the Company reserves the right to charge interest on any overdue payment at a rate of three per cent per month. In the event that the company shall have paid the seller (normally 35 days after the sale) and part of the purchase price is still outstanding, title to the lot will pass to the Company. The Company shall then have the right to sell any other goods belonging to the buyer and held by the Company for whatever reason at such a price that the company, in its absolute discretion, thinks fit. The buyer shall also reimburse the Company for any additional costs incurred in this process.

(16) Buyers accepting commissions from third parties do so at their own risk. They remain responsible to the Company for full settlement according to these conditions

(17) Privacy Policy - We may collect and process information you give to us such as your name, address and references. We will use this information to carry out our obligations arising from any contracts entered into between us and you and to provide you with the information, products and services that you request from us or that we offer. We may share your personal information with any member of our group, which means our subsidiaries, our ultimate holding company and its subsidiaries, as defined in section 1159 of the UK Companies Act 2006. We may share your information with selected third parties including: business partners, advertisers and analytics. We may disclose your personal information to third parties in the event we sell or buy any business or assets in which case we may disclose your personal data to the prospective seller or buyer or such business or assets or if we are under a duty to disclose or share your personal data in order to comply with any legal obligation or in order to enforce or apply our terms of use. You have the right to ask us not to process your personal data for marketing purposes.

(18) By making a bid, the buyer acknowledges his acceptance of these conditions and agrees to be bound by them.

(19) If any buyer fails to comply with any of these Conditions, the lot or lots in respect of which the failure is made may at the discretion of the Company be put up again and resold. The damages recoverable from the defaulting buyer shall include, but not be limited to, the auctioneers’ expenses and commission in respect of the resale and the amount (if any) by which the price obtained on the resale is exceeded by that obtained on the first sale.

(20) A variation of these Conditions shall only be binding on the Company and the seller if it is made in writing and signed by a duly authorised representative of the Company.

(21) These Conditions shall take effect and be construed in accordance with the provisions of English law.
