FOREWORD

Welcome to our auction 45, open to online bidding only. We are pleased to be able to offer a good selection of ancient, Islamic, British and foreign coins, as well as commemorative medals and banknotes. Of note among the earlier coins are a gold dinar of the Sassanian king Shapur I, and among the Islamic coins, an extremely rare silver dirhem of the Abbasid ruler al-Musta’sim and a gold dinar of the Bahri Mamluk ruler Baybars I. A good run of British coins includes a third coinage laurel of James I, and crowns of Oliver Cromwell and George II, as well as a scarce 1820 half sovereign with O for zero in the date, two Gothic crowns in excellent condition and a 1911 long proof set. As usual we are including a separate listing of sovereigns and among them we are proud to present a newly-discovered very rare 1908C example, struck at the Ottawa mint, and graded by NGC as Specimen 66 - a superb satin-finish proof, a recent discovery and never before offered for sale. Highlights in the Foreign coins section are a Brazilian 20,000 reis with the rare date 1724M, an exceedingly rare Portuguese gold cruzado minted in Porto and a very rare Ottoman gold treasury bar. The auction also includes a substantial group of commemorative medals and concludes with a selection of banknotes.

If you are unable to attend the sale, you can bid free of charge through our website www.bsjauctions.com or our app, or leave bids via www.sixbid.com or www.numisbids.com

£10,000-15,000

This wonderful coin was among the first gold coins struck at the Ottawa mint. It is made of gold sourced from the Yukon, where gold was discovered in the Klondike in 1896, leading to a gold rush in the far northwestern reaches of the country that lasted for several years. Much as had been the case involving the massive discovery of silver in America thirty years earlier - the Comstock Lode - which caused the minting of the Morgan silver dollar beginning in 1878, the Yukon gold was more than traditional Canadian commerce required. This fresh supply of native Canadian gold, however, proved to be an economic boost once turned into coins. Initially, gold was popular only in the west. There are scant accounts but the gold must have traded in the form of nuggets and dust. It was not a convenient money, nor easily agreed upon as value. A branch of the Royal Mint, the mint at Ottawa, was established in 1901 by royal assent and by a decree of the Canadian House of Commons, but the building itself was not begun until 1905. It was completed after nearly three years - a massive stone edifice - and was officially opened on 2 January 1908. The delay was essentially caused by two factors: the size of the structure, and the salient fact that, at that time, gold as money held little part in Canadian commerce. Craig stated (p.388) that ‘The Canadian Government had long pressed for a mint under their own auspices with power to coin sovereigns’. In fact, however, no gold coins were made for commerce immediately. Challis affirmed (p.544) that demand for sovereigns ‘proved to be slight’. In its first year of operation, Ottawa created a mere 636 pieces dated 1908 and possessing the ‘C’ mintmark above the date on the ground-line of St. George’s horse, all being struck with this satin finish. The purpose seems to have been to commemorate the opening of the Ottawa Mint. Of the 636 satin finish proofs made, ten were melted during the trial of the pyx, a sensible event owing to this being the initial gold issue; and the alloy was found to be exactly right. 1908C is by far the lowest mintage struck at Ottawa. Marsh stated that he believed the 1908C sovereign ‘must surely be as rare as any sovereign struck’ but that was the belief in 1980 when Marsh was writing. Marsh claimed to own one piece. The question remains: what happened to the 625 pieces Marsh said he never saw? This coin is a true rarity among modern coins, and in the intervening years since Marsh’s book was published only a handful of 1908C sovereigns have surfaced. This is one of them! During the period of its existence as a branch facility of the Royal Mint, Ottawa issued a total of 627,834 sovereigns in only 10 years of production, a figure which excludes 318 melted for trials of the pyx. No sovereigns were made in 1912 or 1915; the final sovereign bearing the ‘C’ mintmark was struck in 1919. No half-sovereigns were ever made. In 1931, the facility became the Royal Canadian Mint. The heyday of the British sovereign made in Canada was over.

The Shanxi History Museum suggests these pieces did not actually circulate, but were used as awards and gifts from emperors and nobles.
228. **China**, Republic, Yuan Shih-Kai, dollar, year 3 (1914), military issue (c.1930-1933), uniformed bust l., rev. value within wreath (KM.Y329 for type; L&M.899), usual crude strike, good very fine for issue £120-150

The Chinese military reproduced the Yuan Shih-Kai dollar of 1914 as an emergency currency between 1930-1933. These pieces were struck locally in the field, i.e. at an army mint. The silver fineness is lower than normal which probably reflects the economic difficulties of the time.

**COMMENORATIVE MEDALS**

The Sydney International Exhibition (17 September 1879 - 20 April 1880) was a determining landmark in the history of the Colony of New South Wales and was Australia’s first International Exhibition. The Stoke Prior Salt Works, which grew into an enormous undertaking, was bought by Corbett between 1853 and 1857, following the bankruptcy of the British Alkali Company. Corbett rapidly expanded the previously failing business, taking advantage of the existing canals and expanding with the growing railway network. The sale of the business to the Salt Union Ltd in 1888 included three locomotives and over 400 wagons and vans. Annual output rose to 200,000 tons of salt. He built housing for his workforce as well as gardens, schools, lecture rooms, a club house and a dispensary, and in 1859 he abolished female labour at the works. He was elected the Liberal MP for Droitwich in 1874, building his home nearby, the splendid Chateau Impney, which is now a hotel. Daniel Auber’s opera is loosely based on Masaniello’s uprising in Naples in 1647; on 25 August 1830, as the second-act duet *Amour sacré de la patrie* finished, it triggered a riot. Whether spontaneous or pre-planned, it marked the onset of the Belgian Revolution ending Dutch rule. *La Muette* soon became legendary as the opera that created a country.

Bernard Sarrette (1765–1858), was the founder of the Conservatoire National de Musique et de Déclamation in Paris. Initially, in 1789, Sarrette had gathered a group of forty-five musicians from the depot of the Gardes Françaises to form the nucleus for the music of the Garde Nationale and even after the suppression of the paid guard, he was able to establish a free school of music in June 1792. On the 18th of Brumaire in the year II (8 November 1793) the school, by decree of the Convention, became the Institut National de Musique. Sarrette (for reasons uncertain) was briefly imprisoned from 25 March to 10 May 1794. Finally, by the law of the 16th of Thermidor in the year III (3 August 1795), the date on the medal, the school was organized under the name of ‘Conservatoire’. Sarrette was never a musician but an astute administrator and he had regained his title of Director during the reorganization of 1800. Sarrette’s position came to an abrupt end in 1815 with the fall of Napoleon and, for the rest of his long life he was to have no further connection with the Conservatoire.

(1) Baldwin’s of St. James’s Limited [the Company] acts as agent for the seller. Sales made by the Company at public auction are sales made on behalf of the seller. The buyer of any lot will be the highest bidder. In the event of any dispute, the auctioneer shall have absolute discretion to settle the dispute as he thinks best; this may mean re-offering the lot for sale.

(2) The buyer of any lot must pay within seven working days after the fall of the hammer. Any lots not so removed may become liable to removal, insurance and storage charges. Such lots may, at the auctioneer’s discretion, be re-offered for sale at auction or by private treaty without further notice to the buyer.

(10) All lots are offered for sale subject to any reserve price that may be fixed by the Company. Where a reserve has been set, only the auctioneer may bid on behalf of the seller. Lots are normally reserved at three per cent per month. In the event that the company shall have paid the buyer (normally 35 days after the sale) and part of the purchase price is still outstanding, title to the lot will pass to the Company. The Company shall then have the right to sell any other goods belonging to the buyer and held by the Company for whatever reason at such a price that the company, in its absolute discretion, thinks fit. The buyer shall also reimburse the Company for any additional costs incurred in this process.

(11) All lots are offered for sale subject to any reserve price that may be imposed by the seller. The seller may not subsequently change the reserve without the agreement of the Company. Where a reserve has been set, only the auctioneer may bid on behalf of the seller. Lots are normally reserved at 80% of lower estimate, with auctioneer’s discretion. Unless reoffered for sale, the collection of unsold lots shall be the responsibility of the seller.

(12) (a) Lots are sold as shown with all faults, imperfections and errors of description and lack of authenticity. The Sale of Goods Act 1979 does not apply to the sale of any lot. Neither the Company nor the seller shall give any warranty or guarantee in respect of any lot or be liable for any fault or error of description or lack of genuineness or authenticity of any lot. All statements as to items sold, whether made in catalogues, during the course of the auction or otherwise, are statements of opinion only and are not and shall not be taken to be statements or representations of fact. The Company reserve the right in forming their opinion to consult and rely upon any expert or authority considered by them to be reliable. Coins are graded to accepted authority considered by them to be reliable. Coins are graded to accepted

(5) The minimum increment between bids will normally be 5%. The auctioneer has the right to refuse any bid which is not in line with this increase. He also has absolute discretion to vary this increment as he sees fit.

(6) All lots are subject to a Buyer’s Premium of 20.00%, exclusive of VAT. (24% inclusive of VAT if the buyer is resident in the EU). The symbol ‘G’ appearing next to a lot indicates the item is ‘Investment Gold’ and therefore a VAT-registered trader can submit a claim to HM Revenue and Customs to recover the VAT element of the Buyer’s Premium. In the case of a lot marked with a dagger (†), import VAT at 5% will be added to the hammer price and will be payable by the bidder if resident in the EU. If the lot is being exported outside the EU, this import VAT can be waived or refunded on proof of export.

(7) Each bidder shall be deemed to act as principal unless the Company acknowledges in writing prior to the auction that he acts as agent for a named third-party principal. For bidders unable to attend the auction in person, commissions will be executed free-of-charge. Such bids must be written and must be received at least 24 hours before the sale begins. The Company cannot guarantee to execute bids received less than 24 hours before the sale. ‘Buy’ bids will not be accepted. The Company shall not be liable for any errors or omissions in executing such commissions.

(8) All buyers must, if requested, notify their name and address to the auctioneer and, if required, provide additional proof of identification, bank references or other credit references. All buyers must pay the full purchase price, at the point of collection of purchases, or a fractional deposit as may be determined at the auctioneer’s discretion, unless the Company has previously arranged credit terms. Seven working days must be allowed for clearance of personal cheques before delivery can be made unless a prior agreement has been reached. A 2.5% surcharge will be applied to all credit card payments.

(9) Ownership of lots does not pass to the buyer until the Company has received payment in full.

(10) All lots, however, are held to be at the buyer’s risk from the fall of the hammer. All lots shall be removed by the buyer within seven working days after the fall of the hammer. Any lots not so removed may become liable to removal, insurance and storage charges. Such lots may, at the auctioneer’s discretion, be re-offered for sale at auction or by private treaty without further notice to the buyer.

(11) All lots are offered for sale subject to any reserve price that may be imposed by the seller. The seller may not subsequently change the reserve without the agreement of the Company. Where a reserve has been set, only the auctioneer may bid on behalf of the seller. Lots are normally reserved at 80% of lower estimate, with auctioneer’s discretion. Unless reoffered for sale, the collection of unsold lots shall be the responsibility of the seller.

(12) (a) Lots are sold as shown with all faults, imperfections and errors of description and lack of authenticity. The Sale of Goods Act 1979 does not apply to the sale of any lot. Neither the Company nor the seller shall give any warranty or guarantee in respect of any lot or be liable for any fault or error of description or lack of genuineness or authenticity of any lot. All statements as to items sold, whether made in catalogues, during the course of the auction or otherwise, are statements of opinion only and are not and shall not be taken to be statements or representations of fact. The Company reserve the right in forming their opinion to consult and rely upon any expert or authority considered by them to be reliable. Coins are graded to accepted UK standards to the best ability of our specialists. You acknowledge that the grading of coins is subjective and may vary from specialist to specialist, as the process is by nature an art and not a science. For this reason, we do not automatically accept and are not bound by the opinions of third party coin grading services for any purposes including before and after the sale of a lot.

(b) Refund policy – notwithstanding the foregoing, if any lot should be proved by the buyer to be not genuine or authentic, or to have been wrongly described in any material respect, the buyer may rescind the contract in writing at any time within one month from, and in the same condition, as at the date of sale. If the coin was in a plastic holder at the time of sale, we cannot accept its return if it has been removed from that holder. In addition, any items in graded holders are sold as is and can only be returned if deemed as fake. The onus of proving a lot to be not genuine or authentic or to have been wrongly described shall lie with the buyer. Proof of the inability of any recognised expert or authority to express a definite opinion shall not discharge such onus. If the buyer shall discharge such onus, the auctioneers shall rescind the sale and repay to the buyer the price paid by him. Save as provided herein, the Company shall not under any circumstances whatsoever be liable for any costs, expenses or damages (whether direct, indirect, special or consequential) incurred or suffered by the buyer in respect of any lot, whether or not as a result of any fault, imperfection, error or description or lack of genuineness or authenticity, including but not limited to loss of any kind of profit whatsoever. The buyer will not be entitled to claim interest on the amount due to him. The buyer shall not be entitled to a refund for any lot for any reason save as set out in this clause 12(b).

(13) Save as provided in the preceding paragraph of these conditions buyers must satisfy themselves as to the accuracy of their purchases at the time of delivery. The Company cannot be held responsible for any discrepancy which might be discovered after the lots have been removed from either the auction room or the auctioneers’ premises.

(14) As stated in paragraph (1), the Company acts solely as agent between the buyer and seller and shall not be held responsible for any default by either party or for any action or claim that may arise in connection with any lot.

(15) Any part of the purchase price still outstanding after the auction, in line with the terms of paragraph (8), shall be paid in full within thirty days of the date of the auction. Without prejudice to any other rights, the Company reserves the right to charge interest on any overdue payment at a rate of three per cent per month. If the lot is not being delivered at the time of sale, the Company reserves the right to charge interest at the rate of three per cent per month. In the event that the company shall have paid the seller (normally 35 days after the sale) and part of the purchase price is still outstanding, title to the lot will pass to the Company. The Company shall then have the right to sell any other goods belonging to the buyer and held by the Company for whatever reason at such a price that the company, in its absolute discretion, thinks fit. The buyer shall also reimburse the Company for any additional costs incurred in this process.

(16) Buyers accepting commissions from third parties do so at their own risk. They remain responsible to the Company for full settlement according to these conditions.
