FOREWORD

Due to the success of our first online-only coin and medal auction, and as there is currently no information regarding the end of lockdown, this sale will also be held online only. We trust that the online format will present no problems to our valued clientele and once things return to normal, we will revert to attended auctions with online bidding available as usual, as well as a few online-only sales.

Once again we are able to offer a varied selection of interesting and rare coins and medals. The Islamic section features a number of particularly sought-after pieces, including an Umayyad dirhem minted at Damascus in 116h, one of the rarest dates of this mint, as well as an Abbasid dirhem issued in Makka in 299h. Of note among the English coins is a penny issued by the Mercian king Burgred and an extremely rare annulet and piles type penny of Henry I, as well as a very attractive silver crown of Elizabeth I and a Cromwell crown in nearly extremely fine condition. Also on offer is an extremely fine 1686 halfcrown (rare in this grade), a half guinea, 1725, graded Mint State 64 and a 1735 crown which is virtually as struck. A Bank of England pattern 5/6, struck in copper, still retains the original copper shell and inscribed Boulton & Watts paper, passed down through the centuries and a very rare historical relic. Also from the reign of George III is an 1819, LIX, crown, no stops on edge, a very rare variety and graded Mint State 65 Prooflike, while from later times we are offering a practically mint state Gothic crown, and a proof 1911 two pounds graded 65+ Cameo. Highlights among the selection of sovereigns is an 1826 example graded Mint State 65, an 1832 graded Extremely Fine 45 and a good very fine example dated 1839. Once again we are including a good selection of tokens, many from the Baldwin's vault, and also the Lakes Collection of tokens and medals from mainly Cumberland and Westmorland. Among the foreign coins are an Australian proof florin, shilling, sixpence, threepence, 1934, all graded Proof 65 or 64, a French piéfort gold 5 francs, 1971, one of only 250 pieces struck, and a very rare mohur of Baroda in India dating from 1889.

You can bid free of charge through our website www.bsjauctions.com or our app, or leave bids via www.sixbid.com or www.numisbids.com

Credit for putting this catalogue together goes to Lisa Norfolk, Courtney Buckingham, Sam Carter, Emma Hulme, Joel Elias, Ruth Müller and Sarah Richards.

Henry Peter Brougham, later to be Lord Chancellor and Baron Brougham and Vaux, was first elected to Parliament as the Whig MP for Camelford, though in 1812 he was defeated when standing for a seat in Liverpool. Brougham was a close supporter of the anti-slavery movement throughout his life. The contentious 1807 Order of Council prohibited trade with France and her allies and any of their ships trading with the United States were obliged to come to a British port and pay tax. Again, the same year, 1812, saw his appointment as advisor to Princess Caroline of Brunswick, becoming her Attorney-General on the accession of George IV. The trial firmly established his reputation.

The latter medal is only recorded in copper. Brougham may well have known its reverse legend as a Latin motto, ‘Fax mentis incendium gloriae’.

  This piece was seen by the British Royal Mint in 1983 when they commented: ‘The reduction punch completed for the Royal Victorian Medal on 24th February 1911 included the letters Sc which Mackennal placed after his initials on several of his models of George V. The letters were therefore present on the matrix of 2nd June 1911 made from that punch and they combine with diameter and inscription to provide a close link with the lead impression. Unfortunately, the matrix has not survived, so that complete certainty is not possible.’

The medal commemorates the opening of the first Parliament by the Duke of Connaught and awarded to those who took part. Also awarded to certain officers and men of HMS Balmoral Castle, a total of 551 medals was struck by the Royal Mint. The Royal Mint notes from 1983 have the caveat that the impression is ‘probably’ the South Africa medal. This piece was seen by the British Royal Mint in 1983 when they commented: A reduction punch with this head and inscription was finished on 27th September 1910. From this punch a matrix was made on 6th January 1911, but it would seem that by this time the striking of the South African medals had been completed and that the matrix was prepared primarily for Police Gallantry medal. The dies for the South African medal must therefore have come directly from the reduction punch and it may therefore be significant that the impression has been taken from a die and not a matrix. The argument in favour of a South African medal is strengthened by the fact that this was the first official medal to bear the effigy of George V.

End of Sale
(1) Baldwin's of St. James's Limited [the Company] acts as agent for the seller. Sales made by the Company at public auction are sales made on behalf of the seller.

(2) The buyer of any lot will be the highest bidder. In the event of any dispute, the auctioneer shall have absolute discretion to settle the dispute as he thinks best; this may mean re-offering the lot for sale.

(3) The auctioneer shall have absolute discretion to divide any lot, combine two or more lots or withdraw any lot or lots without giving any reason. In the case of a dispute, he may re-offer a lot for sale. The auctioneer also has the right to refuse any bid or bids without giving a reason.

(4) The Company and auctioneer shall have absolute discretion to refuse admission to their premises or attendance at their auction of any person they deem unsuitable, without giving any reason for, or prior notice of, their action.

(5) The minimum increment between bids will normally be 5%. The auctioneer has the right to refuse any bid which is not in line with this increase. He also has absolute discretion to vary this increment as he sees fit.

(6) All lots are subject to a Buyer's Premium of 20.00%, exclusive of VAT, (24% inclusive of VAT if the buyer is resident in the EU). The symbol 'G' appearing next to a lot indicates the item is 'Investment Gold' and therefore a VAT-registered trader can submit a claim to HM Revenue and Customs to recover the VAT element of the Buyer's Premium. In the case of a lot marked with a dagger (†), import VAT at 5% will be added to the hammer price and will be payable by the buyer if resident in the EU. If the lot is being exported outside the EU, this import VAT can be waived or refunded on proof of export.

(7) Each bidder shall be deemed to act as principal unless the Company acknowledges in writing prior to the auction that he acts as agent for a named third-party principal. For bidders unable to attend the auction in person, commissions will be executed free-of-charge. Such bids must be written and must be received at least 24 hours before the sale begins. The Company cannot guarantee to execute bids received less than 24 hours before the sale. 'Buy' bids will not be accepted. The Company shall not be liable for any errors or omissions in executing such commissions.

(8) All buyers must, if requested, notify their name and address to the auctioneer and, if required, provide additional proof of identification, bank references or other credit references. All buyers must pay the full purchase price, at the point of collection of purchases, or a fractional deposit as may be determined at the auctioneer's discretion, unless the Company has previously arranged credit terms. Seven working days must be allowed for clearance of personal cheques before delivery can be made unless a prior agreement has been reached. A 2.5% surcharge will be applied to all credit card payments.

(9) Ownership of lots does not pass to the buyer until the Company has received payment in full.

(10) All lots, however, are held to be at the buyer's risk from the fall of the hammer. All lots shall be removed by the buyer within seven working days after the date of the sale. Any lots not so removed may become liable to removal, insurance and storage charges. Such lots may, at the auctioneer's discretion, be re-offered for sale at auction or by private treaty without further notice to the buyer.

(11) All lots are offered for sale subject to any reserve price that may be imposed by the seller. The seller may not subsequently change the reserve without the agreement of the Company. Where a reserve has been set, only the auctioneer may bid on behalf of the seller. Lots are normally reserved at 80% of lower estimate, with auctioneer's discretion. Unless reoffered for sale, the collection of unsold lots shall be the responsibility of the seller.

(12) (a) Lots are sold as shown with all faults, imperfections and errors of description and lack of authenticity. The Sale of Goods Act 1979 does not apply to the sale of any lot. Neither the Company nor the seller shall give any warranty in respect of any lot or be liable for any fault or error of description or lack of genuineness or authenticity of any lot. All statements as to items sold, whether made in catalogues, during the course of the auction or otherwise, are statements of opinion only and are not and shall not be taken to be statements or representations of fact. The Company reserves the right in forming their opinion to consult and rely upon any expert or authority considered by them to be reliable. Coins are graded to accepted UK standards to the best ability of our specialists. You acknowledge that the grading of coins is subjective and may vary from specialist to specialist, as the process is by nature an art and not a science. For this reason, we do not automatically accept and are not bound by the opinions of third-party coin grading services for any purposes including before and after the sale of a lot.

(13) As provided in the preceding paragraph of these conditions buyers must satisfy themselves as to the accuracy of their purchases at the time of delivery. The Company cannot be held responsible for any discrepancy which might be discovered after the lots have been removed from either the auction room or the auctioneer's premises.

(14) As stated in paragraph (1), the Company acts solely as agent between the buyer and seller if it is made in writing and signed by a duly authorised representative of the Company. The Company reserves the right to charge interest on any overdue payment at a rate of three per cent per month. In the event that the company shall have paid the buyer the price obtained on the resale is exceeded by that obtained on the first sale. The seller may not subsequently change the reserve price obtained on the resale and the amount (if any) by which the price obtained on the resale is exceeded by that obtained on the first sale.

(15) Any part of the purchase price still outstanding after the auction, in line with the terms of paragraph (8), shall be paid in full within thirty days of the date of the auction. Without prejudice to any other rights, the Company reserves the right to charge interest on any overdue payment at a rate of three per cent per month. In the event that the company shall have paid the buyer the price obtained on the resale and the amount (if any) by which the sale price is still outstanding, title to the lot will pass to the Company. The Company shall then have the right to sell any other goods belonging to the buyer and held by the Company for whatever reason at such a price that the company, in its absolute discretion, thinks fit. The buyer shall also reimburse the Company for any additional costs incurred in this process.

(16) Buyers accepting commissions from third parties do so at their own risk. They remain responsible to the Company for full settlement according to these conditions.

You have the right to ask us not to process your personal data for marketing purposes.

(18) By making a bid, the buyer acknowledges his acceptance of these conditions and agrees to be bound by them.

(19) If any buyer fails to comply with any of these Conditions, the lot or lots in respect of which the failure is made may at the discretion of the Company be put up again and resold. The damages recoverable from the defaulting buyer shall include, but not be limited to, the auctioneers' expenses and commission in respect of the resale and the amount (if any) by which the price obtained on the resale is exceeded by that obtained on the first sale.

(20) A variation of these Conditions shall only be binding on the Company and the seller if it is made in writing and signed by a duly authorised representative of the Company.

(21) These Conditions shall take effect and be construed in accordance with the provisions of English law.
